Forecast for Saturday 11 Jun 2022

Weather: Largely cloudy with some limited cloud breaks at first, and also areas of hill fog. The hill fog will soon lift, leaving often cloudy conditions but with some sunny intervals and then clear intervals this evening. Scattered showers will arrive through the day, the showers mostly light but an occasional one could be heavy.

Chance of cloud-free hill tops above 800m: 40% at first, soon becoming 90%. Then decreasing 60% this evening.

Low Cloud and visibility: Areas of cloud on slopes above 500m at first hours and again this evening, bringing hill fog at times. Otherwise cloud largely clear of the summits, but briefly lowering to around 800m in any showers. Visibility beneath cloud generally excellent, with only brief deteriorations to moderate in any showers.

Meteorologist's View

Winds will be strong on the slopes. Be sure to have appropriate footwear to help keep your footing. When the sun does break through it will be strong, with high UV levels. Therefore sun protection is advised.

Forecast for Sunday 12 Jun 2022

Weather: Cloudy with mist and hill fog to the summits during the early morning, and isolated mainly light showers. Through the day remaining largely cloudy, with occasional light showers, but with some sunny intervals.

Maximum wind: 20mph westerly winds on the summits, gusting 30mph at times.

Chance of cloud-free hill tops above 800m: 40% in the early morning, increasing to 90% thereafter.

Low Cloud and visibility: Cloud at 500m and above covering higher routes on occasion through the first part of the morning. From then on, cloud largely above the summits with very good visibility of surrounding areas.

Temperature: **Valleys:** Plus 10 Celsius to plus 18 Celsius.
At 800m: Plus 4 Celsius, rising to plus 8 Celsius.
Freezing level: Above the summits.
